

PlusCharger 7 Series

The PlusCharger 7-PD20W is a 20W Power Adaptor with dual USB-C & USB-A charge ports that can quickly and efficiently charge your USB devices. It is compatible with PD 2.0/3.0, QC 2.0/3.0, FCP, SCP fast charging protocol and supports charging mode of BC1.2/Samsung 2A/Apple 2.4A. The USB DCP automatically detects the charging mode for the different USB device and adjusts to maximum charge current. Built-in intelligent IC chip provides multiple security protection against short circuit, temperature control, overvoltage and overcharge. The compact design of PlusCharger 7-PD20W makes it ideal to use at home, in the office, or during travelling.

- > Powerful(Maximum) 20W output
- > Compatible with fast charging protocol of PD 2.0/3.0, QC 2.0/3.0, FCP, SCP and support charging mode of BC1.2/Samsung 2A/Apple 2.4A
- > USB DCP automatically detects the charging mode for the different USB device and adjusts to maximum charge current
- > Built-in intelligent IC chip provides protection against short circuit, temperature control, overvoltage and overcharge
- > Wide compatibility with various USB devices
- > Compact & portable design makes it ideal to use at home or office, or during traveling

Specifications:

MODEL	PlusCharger 7-PD20W
Wattage	20W
INPUT	
Voltage	100 - 240Vac
Frequency	50/60Hz
Current	0.55A
OUTPUT	
USB-C (PD)	5VDC ⇄ 3A or 9VDC ⇄ 2.22A or 12VDC ⇄ 1.67A Normal Output: 5VDC ⇄ 3A
USB-A (QC)	5VDC ⇄ 3A or 9VDC ⇄ 2A or 12 VDC ⇄ 1.5A Normal Output: 5VDC ⇄ 3A
Dual USB-C (PD) & USB-A (QC)	5VDC ⇄ 3A Max.
ENVIRONMENT	
Operating Temperature	0°C - 40°C (32°F - 104°F)
PHYSICAL	
Net Weight	46g
Dimension (D*W*H)	60*30*40mm

*Product specifications are subject to change without further notice.

Applications:
